Tuesday/Thursday Breakfast Social & Discussions August 5, 2014

Highlights – Kenyatta Sparks, the SJB Group DBE Supportive Services Program Assistant, held another successful Breakfast Social meeting with Ms. Sharmaine James with Condall Consulting Group. The purpose of the meeting was to provide Ms. James with pertinent information about the DBE Supportive Services Program and the services available to her company, at no cost. After discussing with Ms. James in more detail about the types of

needs her company has, DBESS provided her with a copy of both their Directory of Contractors Booklet and Directory of Engineers Booklet, so she can begin contacting the firms that she would like to partner with on future LA DOTD projects. In order to increase her opportunities of being awarded projects with DBE Goals, DBESS suggested that she add more LA DOTD Work Item Codes to her firms DBE Certification. DBESS also provided her with a tutorial of how to navigate through LA DOTD website that will enable her the ability to locate and view important information about the LA DOTD projects her firm may be interested in chasing.

We thank Ms. James for taking time out of her busy schedule to meet with us here at SJB Group and look forward to assisting her in the future business endeavors of her firm.

If you are interested in attending our Breakfast Social Discussion meeting, please call Mr. Sparks at (225) 769-3400. These meetings are held on Tuesdays and Thursdays from 10:30 am to 11:30 am, at the SJB Group Office, 5745 Essen Lane, Suite 200, Baton Rouge, Louisiana.

HEAT-RELATED ILLNESSES AND FIRST AID

It's that time of the year, so take the necessary precautions to prevent the following heat-related illnesses.

Heat stroke, the most serious form of heat-related illness, happens when the body becomes unable to regulate its core temperature. Sweating stops and the body can no longer rid itself of excess heat. Signs include confusion, loss of consciousness, and seizures. **"Heat stroke is a medical emergency that may result in death!"** Call 911 immediately.

Heat exhaustion is the body's response to loss of water and salt from heavy sweating. Signs include headache, nausea, dizziness, weakness, irritability, thirst, and heavy sweating.

Heat cramps are caused by the loss of body salts and fluid during sweating. Low salt levels in muscles cause painful cramps. Tired muscles—those used for performing the work—are usually the ones most affected by cramps. Cramps may occur during or after working hours.

Heat rash, also known as prickly heat, is skin irritation caused by sweat that does not evaporate from the skin. Heat rash is the most common problem in hot work environments.

The chart below shows **symptoms** and **first aid measures** to take, if a worker shows signs of a heat-related illness.

HEAT-RELATED ILLNESSES AND FIRST AID

Illness	Symptoms	First Aid*
Heat stroke	Confusion Fainting Seizures Excessive sweating or red, hot, dry skin Very high body temperature	Call 911 While waiting for help: Place worker in shady, cool area Loosen clothing, remove outer clothing Fan air on worker; cold packs in armpits Wet worker with cool water; apply ice packs, cool compresses, or ice if available Provide fluids (preferably water) as soon as possible Stay with worker until help arrives
Heat exhaustion	Cool, moist skin Heavy sweating Headache Nausea or vomiting Dizziness Light headedness Weakness Thirst Irritability Fast heart beat	Have worker sit or lie down in a cool, shady area Give worker plenty of water or other cool beverages to drink Cool worker with cold compresses/ice packs Take to clinic or emergency room for medical evaluation or treatment if signs or symptoms worsen or do not improve within 60 minutes. Do not return to work that day
Heat cramps	Muscle spasms Pain Usually in abdomen, arms, or legs	Have worker rest in shady, cool area Worker should drink water or other cool beverages Wait a few hours before allowing worker to return to strenuous work Have worker seek medical attention if cramps don't go away
Heat rash	Clusters of red bumps on skin Often appears on neck, upper chest, folds of skin	Try to work in a cooler, less humid environment when possible Keep the affected area dry
* Remember, if you are not a medical professional, use this information as a guide only to help workers in need.		

This article was taken from the OSHA Website. For more information about heat-related illnesses: visit, www.osha.gov.

***Please share this very important information with your employees.
Remember an ounce of prevention could save a life.***

Certification: An Overview in Black & White

Thursday, September 18, 2014 10:00 AM to 12:00 PM

Many firms get lost in the "alphabet soup" of certifications: DBE, WBE, MBE, 8(a), SEBD . . . This seminar focuses on why (or why not) certification as a minority, woman-owned, or disadvantaged business may be beneficial to your company. The Do's and Don'ts of certification are provided in "plain English" to help the small business owner decide which certification is right for his or her business. Then, get prepared for the certification process: learn about the various certification types as well as how and where to apply. Attendees will have an opportunity to ask questions about the processes, benefits and documentation required for certification.

Speaker: Erik Waters, Business Consultant

Location: [LSBDC Greater New Orleans and Bayou Region : Main Office, UNO Jefferson Center, *Metairie](#)

DBE PROFILE

CONDALL CONSULTANTING GROUP, LLC

Established in 2004, Condall Consulting Group, LLC ("CCG") is a 100% women/minority-owned business enterprise. Before celebrated its first anniversary, CCG was destroyed in the widespread devastation and flooding caused by Hurricane Katrina in August 2005. With a commitment to the rebuilding and recovery efforts in the New Orleans area, the owner, Ms. Sharmaine James, worked diligently towards rebuilding the firm and in July 2007 re-established the company in a new office, which is located in a "Historically Underutilized Business Zone (HUBZone)". Since July 2007, CCG had been operating its corporate office out of the Waldemar S. Nelson Building located in New Orleans, Louisiana. As a small emerging business, CCG will always be committed to the rebuilding and recovery efforts in the Gulf Coast Region caused by the damages from hurricanes.

CCG's highly professional team, offers services to enhance and strengthen their clients' organizations by providing fast, responsive, and informative expertise. CCG will deliver consistent, high quality professional solutions, throughout the duration of the project, which will allow their clients to complete their projects on time and within budget.

Philosophy: "To CONDuct positive change for ALL"

Owner/CEO: Sharmaine A. James

Office:

1215 Prytania Street, Suite 425

New Orleans, Louisiana 70118

504-592-4000 Main

504-592-4001 Fax

Email: sajames@condall.com

What can SJB Group do for You?

SJB Group, LLC can provide **free assistance** to certified LADOT DBE firms in the following areas:

SJB Group can assist you by: preparing company business cards, profile sheets, and providing information on recommended target areas for your marketing efforts.

By acting as a liaison between the DBE Contractor and Prime Contractor for project information, and in problems occurring on the jobsite.

By informing of upcoming LADOT lettings, and project information for other agencies throughout the state. SJB can assist you in locating bid tabulation information as well.

By providing assistance and guidance on material takeoffs, bid preparation and estimating, project scheduling, and planning for projects that DBE firms are bidding or plan to bid in the near future.

By helping with office computer operations to include trouble-shooting problems, Internet access and software installation, and basic to technical computer training.

By assisting in financial areas such as loan and bond package preparations, company financial statements, business plan preparation, and SBA 8(a) and Hub-Zone certification packages.
